

# **iUTAH GREEN INFRASTRUCTURE RESEARCH FACILITY (GIRF) AND GREEN INFRASTRUCTURE RESEARCH NETWORK (GIRN) STAKEHOLDER MEETING**

**November 6, 2013**

**Room 2051 Meldrum Civil Engineering Building  
University of Utah  
Salt Lake City, UT**

## **Agenda**

- |                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|----------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 10:00 to 10:15 | Welcome, Introductions, Objectives of Meeting                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 10:15 to 10:30 | Introduction to iUTAH and GIRF/GIRN                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 10:30 to 10:45 | Conceptual Design of GIRF                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 10:45 to 10:00 | Feedback from Stakeholders on Research Needs and Priorities <ul style="list-style-type: none"><li>- Types of GI an LID Systems of Interest to User Community</li><li>- Questions Regarding Performance Effectiveness/Costs/Maintenance Requirements that are Barriers to Implementation</li><li>- Willingness of Stakeholders to Participate in Research/Joint Proposals</li><li>- Stakeholder Sites Available for Incorporation into GIRN/Collaboration Opportunities</li></ul> |
| 12:00          | Adjourn                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
